

Minutes of the Meeting of the COMPRES Executive Committee 18 February 2011

Present: Bass, Burnley, Dera Duffy, Panero, Ross, Tyburczy, van Orman, Weidner

Absent: none

1. Minutes of the 4 Feb. 2011 Executive Committee meeting were approved without comment.
2. The nominations committee will be chaired by P. Dera. Bob Liebermann and Steve Jacobsen agreed to serve as members of the nominations committee. The committee membership was approved.
3. The report on the Site Review of NSLS Facilities is near completion.
4. Jim Tyburczy reviewed speakers confirmed for the annual meeting. One question is about whether we can have two breakouts. One suggestion is a breakout on European jobs.
5. Meeting with Deputy Director for Photon Sciences at APS, Dennis Mills (Duffy): The purpose was to explore possibilities for COMPRES to have more of a presence at APS. APS upgrade: some insertion devices are available but extremely competitive to get. Bending magnet beamlines are available.
6. Meeting with Qun Shen and Steve Dierker (Bass/Weidner):  
The group discussed various models for the COMPRES presence at NSLS II and, more generally, high-pressure sciences and NSLS II. A high-pressure village is a possibility. Weidner summarized the PDX beamline (a damping wiggler beamline).

Meeting adjourned at 5:00 Eastern Time
